Pure Line

Welfare products for broilers

Products for even more animal welfare in broiler houses

Animal-friendly management systems, a good climate in the barn, emission reduction and labour efficiency are the requirements of today and tomorrow. Big Dutchman offers a

wide range of products for increased animal welfare in broiler houses. This includes:

- the use of organic enrichment material;
- litter boxes;

- elevated resting areas and perching options.

Broilers are very interested in baskets filled with hay or alfalfa. These baskets are easy to suspend from the ceiling. When the barn is depopulated, the baskets can simply be removed.

Straw or hay basket – code no. 65-97-3530

Hay basket – code no. 46-54-3726

The elevated resting areas available from Big Dutchman are entirely made of plastic. They are easy to set up and to remove. Thorough cleaning is also not an issue. The birds are easily able to get onto the platform, which is 330 mm high. The standard dimensions are 3448 mm x 750 mm, i.e. the platform has a surface area of 0.878 m². Further extensions are possible. The litter boxes (1400 mm x 800 mm x 100 mm) are simply placed on the ground and can be filled with many different materials.

Elevated resting area – code no. 15-22-5086

Litter box – code no. 36-00-3982

The folding A-racks 5800 from Big Dutchman are fully made of metal. A total of five perches are mounted on four cross members at different heights. This means that even young birds can easily “take a seat”. Each A-rack generates 29 m of perching space. The raised Siesta perch by Big Dutchman is completely made of a plastic material. Setting up the perch as well as removing and cleaning it is all easily done. The jump height is 150 mm. The standard version of the perch is 3000 mm long. It can be installed in both standing and suspended position.

A-rack 5800 – code no. 83-13-8698

Siesta perch – code no. 30-61-3145
